

# FLAG STONE

**Qcon** is manufacturing high quality Flag Stone, its a type of flat, natural stone commonly used in landscaping and construction. It is typically thin and irregularly shaped, making it suitable for creating pathways, patios, and outdoor surfaces. Due to its rustic appearance and durability, Flag Stone is prized for its aesthetic appeal and ability to withstand weather conditions, making it a popular choice for enhancing outdoor spaces.

Utilizing hydraulic press and vacuum de-watering machines equipped with advanced German technology further underscores your dedication to manufacturing top-notch products. The ability to offer a variety of shapes and sizes provides flexibility for different projects and design requirements. Additionally, the option to paint the kerb stones based on customer preferences adds a personalized touch and enhances their aesthetic appeal.
