WALL BLOCKS

Premium-grade aggregates and cement are utilized in the production of standardized 8-inch, 6-inch, and 4-inch solid cement concrete blocks.

Furthermore, top-tier additives are incorporated into the manufacturing procedure.

Employing an automated production line equipped with high-compression mechanisms, precision dyes, and steel pallets guarantees the impeccable molding of these blocks.

The state-of-the-art Rotho Systems from Germany are employed to flawlessly cure the blocks.

This fully automated and digitally controlled process guarantees uniformity in both the quality and quantity of each block.

BENEFITS OF USE

Cost and Time Savings:

Efficiently reduces concrete-related expenses and construction duration.

Enhanced Aesthetics:

Offers improved visual appeal.

High Durability - Minimal Maintenance:

Ensures prolonged lifespan with minimal upkeep requirements.

Precise Dimensions for Uniform Appearance:

Attains perfect measurements, ensuring consistent visual appeal.

Clean Edges for Seamless Matching:

Neat edges guarantee flawless alignment and integration.

Optimal Value for Investment:

Provides a worthwhile and cost-effective choice.

Reusability:

Blocks are reusable, contributing to sustainability.

Advanced Curing Chamber:

Incorporates a state-of-the-art curing chamber.

Damage-Free Handling:

Crane-assisted loading and unloading mitigate potential damage risks.

Available Sizes

Length	Width	Thickness
400 mm	200 mm	100 mm
400 mm	200 mm	150 mm
400 mm	200 mm	200 mm
300 mm	200 mm	200 mm
