

GRASS PAVERS.

Euro style pavers are a new product line from QCON designed for use in landscaping designs, inner courtyards, and other areas with a medium load.

It is highly functional, aesthetically pleasing, and suitable for various applications, including car parking, driveways, and walking paths, It comes in five different dimensions and colour variants, with or without shot blasting.

They are a hot preference of architects and designers because they can be used in any permutation and combination of size and colour to optimize aesthetics.

It has a high abrasion strength, and loading and unloading the pavers by crane has resulted in no damage.

They can be cured in a chamber to ensure consistent quality and reusable.

PEBBLE STONE.

Dimension
475x310x120

475mm

Pebble stones offer low-maintenance landscaping, aiding water drainage, suppressing weeds, and adding natural charm. Their durability ensures lasting pathways and surfaces, while their diverse colors and sizes enable creative design options for various outdoor spaces.
